

## erWin Free access to the Digital Service Schedule

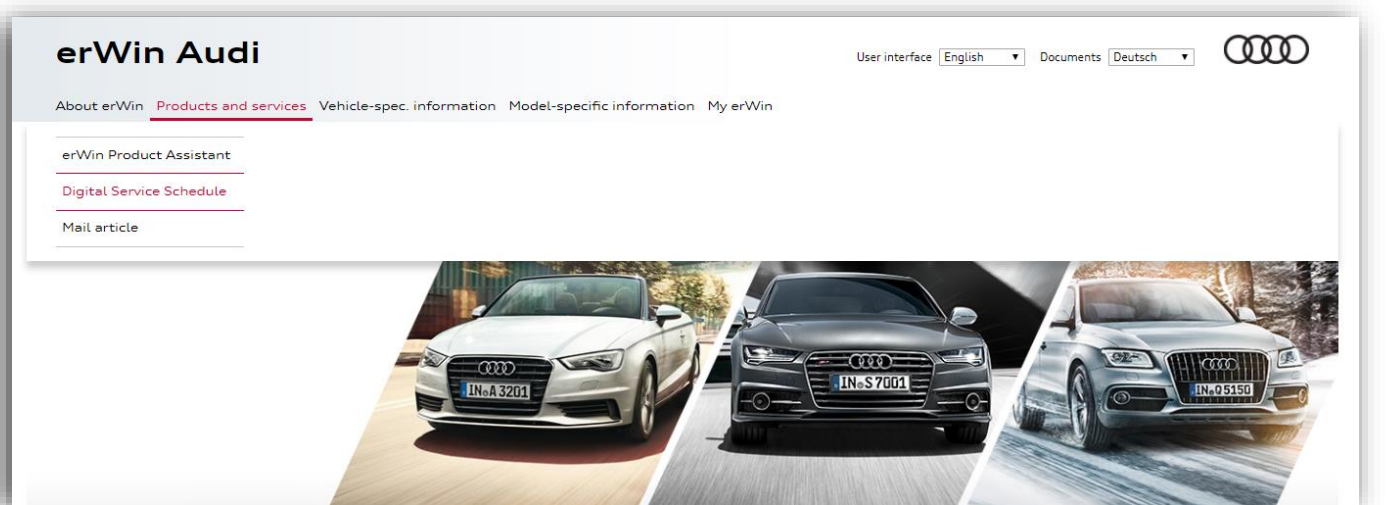

The Digital Service Schedule is available to companies free of charge. This document explains how to access the Digital Service Schedule via the erWin portal without purchasing a flatrate booking.

### Logging into the erWin portal

The first step is to log in to the erWin portal. If you do not have an account, you can create one by selecting "My erWin" on the menu bar and then selecting "Registration".

### Accessing the Digital Service Schedule

Select the "Products and services" menu option to access the Digital Service Schedule.

## Digital Service Schedule

Information regarding the Digital Service Schedule can be found here.  
For vehicles that have a Digital Service Schedule, registered erWin users can make entries via the system. These vehicles also have a streamlined printed service schedule containing general information; this can be used to store the records generated.  
> Online help – Digital Service Schedule

Enter desired VIN.

VIN

**Search >>**

### Further offers

- > New applicants for the service network
- > Workshop fittings
- > Engine oils
- > Real Driving Emissions

### Login

Logged on as testwerkstatt1

**Log off >**

> Change password

Enter the relevant VIN and click "Search". If your search is successful and the Digital Service Schedule is available for the vehicle, a list will open displaying an overview of all service entries.

Print language: en-GB (UKEnglish) Digital Service Schedule

Date of delivery: 2008-03-11

Entry	Type of service	Dealership	Date of performing operations	Mileage/km	Complete record

Service record (MT) Anti-corrosion warranty Workshop remark

**No open maintenance list found for the vehicle.**

Create maintenance table

Click "Create maintenance table" to create a maintenance table.

## erWin Free access to the Digital Service Schedule

**Maintenance tables – step 1 of 3**

Delivery inspection \* Query vehicle history

Service for display and storage vehicles

Additional tasks only

Registration date (yyyy-mm):

Current mileage:

Last service:

On (YYYY-MM):

At mileage:

Last oil change service/service interval:

On (YYYY-MM):

At mileage:

Recoding:

Inspektion mit Ölwechsel

Once the maintenance table has been finalised, you will be taken back to the overview of service entries. The newly created maintenance table will be included in the list.

You can select the service entries that you wish to print via the "Complete record" column. Here, it is only possible to print entries that you have created yourself.

## Access to additional repair and maintenance information
